

Solid state (electronic) circuitry provides ultra-clean, reliable DC power.

The 6700 Series offers a selection of output amperages and AC/DC branch circuits.

OBSOLETE

Electronic Converter/Charger Reliability for Smaller RV Classes.

And the Convenience of Integrated AC/DC Distribution.

MagneTek 6700 Series converterchargers prove that ultra clean power can come in small packages. Available in 12 and 20 amp outputs, 6700 Series models are ideal for use in smaller RVs such as tent campers and truck campers. They provide the same quiet operation and filtered DC power that MagneTek electronic (solid state) converters are known for.

Clean, filtered DC power is free from "spikes" and "surges," no matter how unstable the AC power source. Bright, flicker-free lighting and reliable appliance performance are some of the benefits RVers receive from 6700 Series power. A barely audible cooling fan is the only sound produced by the 6700's operation.

The 6700 Series provides power center convenience, as AC/DC distribution is integrated. Easily accessible reverse polarity fuses protect against cross-wiring.

The full output rating is available for battery charging, virtually eliminating dead or drained batteries. Optional two-step battery charging provides: efficient recharging; voltage control increasing the life of lighting; and timed voltage set-back for float service without over-charging. **All MagneTek products carry a standard two-year warranty.** UL/C-UL listed.

Specifications on back.

Typical Installation

Note: The 6700 Series is designed for indoor use only. Do not install in the engine compartment.

Output Load Curve (Typical 6700 Series)

Optional 2-Step Battery Charging provides efficient recharging, voltage control increasing the life of lighting, and timed voltage set-back for float service without over-charging.

6700 Series Specifications

Part No.	Max. No. 120 VAC Branch Circuits	AC Input		DC Output		Dimensions			Weight	DC Output Branch Circuits	Fan Cooled
		Volts	Watts	Volts	Amps.	Ht.	Wdth.	Depth			
6720	3	105-130	355	12.8	20	5 5/8"	12 1/4"	5"	10lb.	4	Yes
6712	2	105-130	200	12.8	12	5 5/8"	12 1/4"	3 3/8"	8lb.	2	No
