SC100™ Upright Scrubber

For generations the mop and bucket was the only option for cleaning small spaces, but simply spreading dirt around is neither effective nor sanitary. This is why Advance developed the SC100™ Upright Scrubber. Not only does its compact, lightweight design allow you to clean very tight areas, but its superior productivity gets the job done fast, giving you more time for other tasks.

The faster way to cleaner floors.

The Advance SC100's convenient, easy-to-use features make it perfect for cleaning small, high-traffic spaces quickly and effectively. The single-pass scrub and dry performance provides quick access to cleaned areas, and the comfortable, two-hand grip combined with its light weight make maneuverability and transport easy for any operator.

A cleaner clean.

With a more effective cleaning system that removes dirt and water rather than spreading it around like a traditional mop, you not only decrease chances for slip-and-falls, but you create a more hygienic environment, as well.

Save time. Reduce costs.

The Advance SC100™ Upright Scrubber can help you minimize wasted energy, time and solution. Two solution flow settings provide efficient cleaning, and a convenient dosing cap ensures you always use the right amount of detergent—while cutting your overall cost to clean.

Optional carpet care kit.

Freshen up smaller carpets, including removal of spots, by adding an optional carpet kit. Brush and squeegees can be removed without any tools making daily maintenance operations easy and fast.

Low Profile. High Performance.

1 *Two solution flow settings and a low solution indicator light ensure efficient cleaning*

2 *Ergonomic handle for comfortable one or two-handed operation*

3 *Easy-to-handle recovery tank makes emptying dirty water easier*

4 *Low deck profile gives the operator easy access to hard-to-reach areas*

5 *Dosing cap makes adding the right amount of detergent much easier*

6 *Strong aluminum frame is built for reliability and long life*

7 *Flexible squeegees can be raised and lowered for double scrubbing*

8 *Easy maintenance allows for a clean, functional machine*

9 *Detachable power cord for quick service*

10 *Quick cord clip for simple cord management*

11 *Tanks, squeegees and brush lock into place with an audible "click" ensuring proper installation*

Coffee Shops
Small Offices
Gas Stations
Restaurants
Convenience Stores
Waiting Rooms

The SC100™ has a cleaning clearance of under 4 inches.

Machine functions stop when in the upright position.

Solution tank dispenses only clean solution, unlike a traditional mop-and-bucket.

Optional manual suction hose offers the ability to reach less accessible areas.
