

ICE COMMANDER RESCUE SUIT (IC9001 02)

The Mustang Ice Commander® is the suit of choice for search and rescue teams, fire departments, and ice rescue professionals. The modular suit is completely waterproof with a water tight hood, integrated gloves, and attached boots. The flotation and insulation performance of a snap in buoyancy liner allows users to immerse themselves for long periods of time in icy cold water and maintain mental and physical capabilities.

Each Ice Commander® has an integrated chest harness for attachment to tether lines, ice awl pockets for storage, rubber gloves, reinforced knees and non-slip rubber soles on the attached boots. As well, each suit is 45% lighter than other rescue suits as it is made in a high visibility welded nylon shell.

SOLAS reflective tape

Heavy duty full-length zipper provides a water-tight seal

Integrated self-adjusting safety harness

Seat and elbows are reinforced with shell fabric

Water-tight hood and face seal

Detachable inner buoyancy liner constructed of closed-cell AirSoft™ foam for maximum flotation and thermal insulation. Liner can be unsnapped and removed for cleaning and repairs

Pockets easily secured with Velcro®

Ergonomic ice awl pockets - sleeve pockets designed to attach and stow ice awls

Welded nylon outer shell provides waterproofing and durability, and makes cleaning and repairs easier

Reinforced knees - reinforced and padded with 2.5 mm neoprene

SIZE	Universal Adult Weight: 110–330 lbs (50–150 kg) Height: 4'11"–6'6" (1.5m–2m)
NOTE	The Ice Commander is intended for ice and still/static cold water rescues only by trained professionals with the required and approved operating standards and requirements of their state or county.
