TORNADO®

Optimized Sweeping System

The roller brush can be precisely adjusted with the help of an LED indicator light for the optimum pressure for different carpet types, ensuring effective cleaning and reducing wear on the brush and carpet.

Edge Cleaning

The side brush provides enhanced edge cleaning, eliminating the need for other equipment to clean along baseboards.

Efficient Filter System

The auto-clean function cleans the pre-filter every five minutes, enabling long periods of uninterrupted low-dust sweeping and extending the life of the filter.

Large Capacity

The large, easily removable 5-gallon dust bin has the capacity for extended use, while optional bin liner bags allow for tidy disposal.

Onboard Battery Storage

With onboard storage inside the machine for an additional battery, the battery can easily be swapped for a fully charged battery without downtime for recharging.

Interchangeable Battery

The Tornado Cordless interchangeable battery and charger are sold separately. Consider extra batteries for continuous use!
