

EZ[®]

Entry-level Value

Big power for starting small.

Ready to start a blended-drink program? The EZ blender is a great way to start. Get Blendtec power and quality at a cost you'll be sure to recoup in no time.

Entry-level Value

Power in simplicity.

Behold the most advanced entry-level blender on the planet. The value-priced Blendtec EZ blender delivers performance you're looking for with the ROI you need to grow your business.

More features—for less.

The EZ incorporates many features of our more expensive machines, including programmed blend cycles and a powerful motor. It's an asset that pays for itself in no time.

Minimize mistakes.

Your employees can choose from 30 preprogrammed, custom blend cycles. That means fewer mistakes, more consistent blends and higher customer satisfaction.

Built to last.

Your EZ is sure to be one of your longest-lasting investments, designed to deliver thousands—even tens of thousands—of servings over the course of its life.

Standard Features

POWER

Peak HP	Amps	Watts	Volts
3	13	1560	120

CONTROL

- No-tend touchpad controls
- Blue LCD display showing profile and cycle count
- 30 preprogrammed blend cycles

VALUE

- The industry's best performance for the price

VERSATILITY

- Compatible with Blendtec's patented FourSide™ jar

More-Powerful Motor

#2 pencil (for scale)

1/2"

Typical blender motor (350 watts)

13-amp motor

1 1/2"

Blendtec motor (1560 watts)

FourSide™ Jar

You want your ingredients to blend, not just spin around in circles. Blendtec's square jar forces your ingredients from the blade, up the jar sides and then straight back down to the blade again.

Stainless Steel Wingtip Blade

The ultra-hard stainless steel blade is cold-forged and tuned for heavy use. So it's stronger and lasts longer than lesser blades. Which is why it's warranted for the life of the jar.
