FURNISHINGS

Versatile & Heavy Duty

The Vitality Series is engineered for high-demand healthcare environments. Antimicrobial PU upholstery and removable seats support efficient cleaning protocols, while multiple arm-kit options allow versatile configurations, from standalone chairs to seamless ganged benching. Backed by a heavy duty frame and 400lb weight rating, Vitality performs confidently in clinics, waiting rooms, and medical reception areas.

Versatile & Heavy Duty

Health Care Chair (Model 32601)

The Vitality seating collection is designed around a modular system of individual seat cushions and interchangeable arm styles, allowing you to tailor each layout to suit your space and application. Choose from arm pairs, shared full arms, shared half arms, or to create the exact configuration you need—whether for compact waiting areas or larger reception zones. Using these arm kits, you can build layouts of up to five connected seats, giving you the flexibility to scale from a single chair to a multi-seater arrangement while maintaining a cohesive, professional look throughout the space.

*Available for configuration as multiple-chair units.
