

# CGMMV

## *Cucumber green mottle mosaic virus*

Catalog number: 45702

### Technical Note:

The test system for *Cucumber green mottle mosaic virus* (CGMMV) has changed. Both the test protocol and antibodies are different. The CGMMV test is now a compound ELISA. Antibody components from the previous Agdia CGMMV test are no longer available and are not interchangeable with antibody components of the new version. You can identify the previous test components from the new test components by referring to the catalog number and lot numbers; see the table below for identification purposes.

**Do not use previous test components with the new test components.**
