Scout™ 24
Cordless Vacuum/Sweeper

Clean anytime with the Scout 24.

With no cord to trip over and a low 61 dBa noise level, the new battery-powered Scout 24 vacuum/sweeper is ideal for anytime cleaning.

- Eliminate the risk of trip-and-falls over a power cord, and the frustration of obstacle-wraps with the Scout 24's battery-powered operation.
- A low 61 dBa noise level allows for cleaning day or night without disturbing employees or guests.
- Quickly and easily move into and out of narrow aisles with a compact 24" cleaning path.
- Maximize your cleaning coverage rate—and your productivity—by moving from carpet to hard surface without stopping.
- Clean twice the space of a wide-area vacuum and four times the area of standard uprights.

Light touch control console
- Dual brush settings allow for light or heavy cleaning
- Hour/battery meter

Scout™ 24
Cordless Vacuum/Sweeper

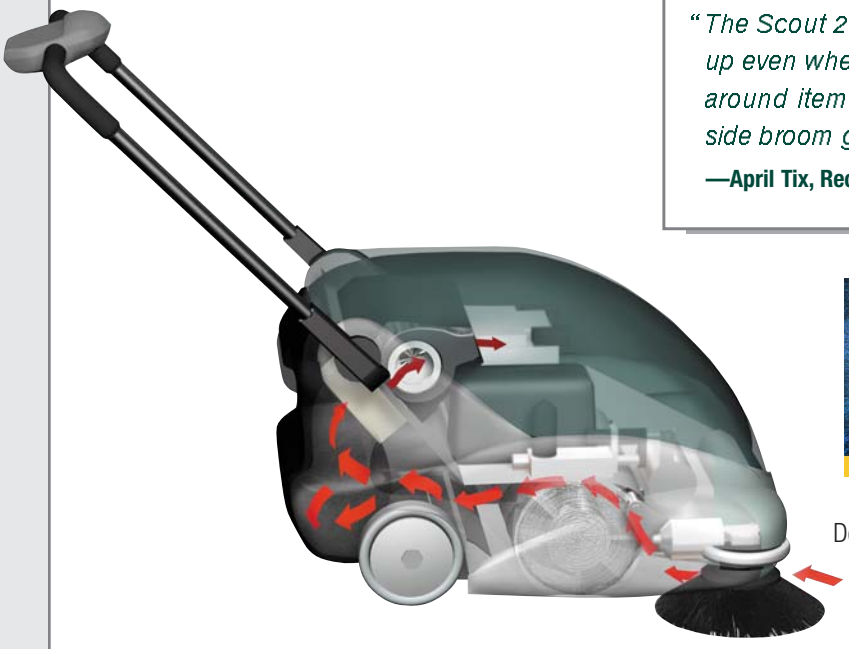

Ideal environments:

- **Retail** – Large box and department stores
- **Healthcare** – Hospitals, clinics and nursing homes
- **Education** – Elementary, secondary, colleges and universities
- **Hospitality** – Auditoriums, casinos, banquet facilities, hotels

Cleaning Path	**24 inches**
Sweeping Style	**Overthrow**
Hopper Capacity	**1.25 cubic feet**
Battery Power	**12 volt**
Run Time	**2 hours**
Sound Level	**61 dBa**

"The Scout 24 is really convenient and we can quickly clean up even when the store is open. It allows us to get in and around items on the sales floor like clothing racks, and the side broom gets under overhangs and toe kicks."

—April Tix, Receiving Manager, Galyan's

Debris/airflow path through the Scout 24 cordless vacuum/sweeper.
