HD ROLL CAGE

Specialty applications.

These belt-drive, electric roll cage models feature cleaning power of 5000 PSI and are available with either 230/3 phase or 460/3 phase motors. These units are specialty machines perfect for use in the marine market cleaning the bottom of boats or in the concrete industry, mixers, forms and handling equipment. Both models are ETL safety certified.

1 Powerful and durable

- 20 HP industrial-duty Baldor motor for years of reliable performance.
- Kärcher crankcase pump is belt-driven for longer-life and quieter operation than gear-driven models and comes with a 7-year warranty.
- Thermal Pump Protection protects the pump against excessive water temperature.
- ETL certification to UL and CSA standards.
- In-line water filter provides additional protection of the pump against dirt and debris.

2 Outstanding mobility

- Roll-cage construction with 4 pneumatic tires and integrated lifting beam for easy maneuverability on all terrains and easy movement with a crane.
- Hand-operated safety brake keeps the unit from rolling when in use.

3 Smart features

- 50-ft high pressure hose rated for 6,000 PSI with 11,000 PSI rated fittings and couplings.
- NEMA 4 Electrical Box houses all electrical components and protects them against house over-spray.
- High visibility spray gun and wand for operator safety and easy operation.
- Downstream detergent injection for application of soaps and other detergents.
- 12-ft electrical cord for connection to electrical circuit.
