SKIN TYPE

Most skin types;
except rosacea-prone, sensitive skin types.

PURPOSE

Formulated with a highly effective time-released Retinol and an advanced form of Vitamin C to help diminish the appearance of fine lines, wrinkles, pore-size, and problematic skin imperfections. With a blend of nocturnal plant extracts that lock in nutrients while you sleep to soothe irritation, calm stressed skin, improve elasticity, and visibly fade signs of senescence. Continued weekly use will result in smoother, more refined skin, enhanced tone, and visible improvement of sun-damaged skin.

BENEFITS

Time-released, liquid-crystalline Vitamin A spheres effectively accelerate cell turnover, smooth skin and improve texture and clarity

Enhances elasticity, fades signs of aging, soothes, strengthens, and limits melanin over-production

Modified, lipid-soluble form of Vitamin C penetrates the epidermis to stimulate collagen production

Provides excellent anti-inflammatory benefits to irritated or compromised skin

Helps prevent skin sensitization by reinforcing skin's natural lipid barrier and retaining hydration levels

Helps to strengthen the lipid barrier, supports the renewal of skin's natural protection layer, and recovers damaged skin

Humectant, regulating the level of hydration of skin; forms a moisturizing, non-occlusive layer of moisture on the skin

Anti-inflammatory, aids in purification, reduces redness and soothes
