Heavy-Duty Performance for Large Areas Rider Scrubber

Maximum cleaning performance in an easy-to-maintain machine

ERIClean's E810R ride-on floor scrubber allows you to tackle large areas quickly and thoroughly. This powerful machine offers a washing width up to 32 inches, covering almost 56,000 feet per hour with ease. With an underslung design, small turning radius, and multiple cleaning modes, this scrubber is equally effective in wide open spaces with high foot traffic and hard to reach areas with tight corners. In high soil load areas, operators can scrub without extracting the cleaning solution, increasing the dwell time before a final scrub.

The patented, die-cast aluminum brush deck and squeegee assembly automatically loads and unloads the brushes with the push of a button, helping to extend the brush plate's lifetime and minimizing the risk of user error or damage. A magnetic brush and pad mounting system makes installing and changing the pads easy. Dual 16-inch brushes are powered by 380W motors, offering a brush speed of 200 rpm.

Filling, draining, and cleaning the generously sized 31-gallon solution and recovery tanks is a breeze thanks to their convenient location and tool-free disassembly design. The massive tank size allows operators to spend more time cleaning and less time on maintenance.

E810R

TACKLE LARGE AREAS WITH EASE

Enjoy greater efficiency, maneuverability, and excellent cleaning results with the E810R ride-on floor scrubber.

SPECIFICATIONS

- Cleaning Productivity (theoretical): 55972 f^2ph
- Machine Width with Squeegee: 42 in
- Scrubbing Width: 32 in
- Max Speed: 4 mph
- Solution Tank Capacity: 31 gal
- Recovery Tank Capacity: 31 gal
- Voltage: 24V
- Brush Motor Power: 380W*2
- Vacuum Motor Power: 500W
- Drive Motor Power: 650W
- Brusher Dimension: 16 in*2
- Brush Speed: 200 rpm
- Brush Pressure: 100 lbs
- Vacuum Power: 2.2 psi
- Sound Level at 1.5m:<70
- Battery Compartment Size:18"x18"x12"
- GrossWeight:705lbs
- Dimensions56"x34"x44"

Why Choose ERIClean?

At ERIClean, we build commercial cleaning equipment that gets the job done. We invest in thoughtful designs and features that increase effectiveness and decrease the cost of operation.
