

## ***Yersinia enterocolitica* (O:9) YopH**

### **Antigen Specification**

**Product Number: 43400**

**Description:**

*Yersinia enterocolitica* (O:9) YopH protein.  
Recombinant antigen for in vitro research and manufacturing use only.

**Immunological function:**

Binds IgG-, IgM, and IgA-type human antibodies.

**Origin:**

Recombinant. Expressed in *E. coli* bacterial cells.

**Expression construct:**

Full-length cDNA coding for *Yersinia enterocolitica* (O:9) YopH fused to a deca-histidine purification tag. By sequence design the tyrosine protein phosphatase activity has been eliminated, resulting in monomeric *Yersinia enterocolitica* (O:9) YopH.

**Biochemical tests:**

SDS-PAGE (purity > 80%); Western blot with patient sample.

**Calculated molecular weight:**

52 kDa

**Calculated isoelectric point:**

pH 8.92

**Endotoxin content:**

Tested by LAL (Limulus Amoebocyte Lysate) chromogenic endotoxin assay.

**Immunological tests/Functionality:**

Immunodot analyses with positive/negative samples.

**Recommended buffer/storage and handling conditions:**

Recommendations for storage buffer: neutral to slightly alkaline pH and 20% glycerol as cryoprotective agent.  
Storage conditions: -70°C or below.  
Repeated freeze/thaw cycles should be avoided.
