# Hospital Vacuum

## H.E.P.A. Filtered Vacuum

For industrial and commercial floor-cleaning equipment click/visit www.southeasternequipment.net

For industrial and commercial floor-cleaning equipment click/visit www.southeasternequipment.net

## Key Features

- Wet/Dry, four stage filtration system includes filter protector, washable cloth filter, pre-filter, and HEPA filter
- HEPA filter is 99.97% efficient at .3 microns, tested in accordance with IEST-RP-CC007 standards.
- Rugged design, easy to maneuver stainless steel tank with heavy cast aluminum wheel assembly
- Patented self-sealing/quick release intake mechanism.
- Indicator light on lid assembly alerts operator when filters require servicing
- Lid design protects motor from water damage, diffusing air alongside the tank for less disruption of ambient particulate matter resulting in a safer work environment
- Convenient 50' power cord.
- Each unit includes packages of replacement disposable filters

## General Overview

- Vacuum system to control contaminants in air and on surfaces; supports proper housekeeping procedures and infection control plan. For use in any area housing immunosuppressed, high-risk patients. Collects and contains fungal, biological, lead, mold, asbestos, bacterial, or any other infectious material.
- Bio-Terrorism Preparedness
- Joint Commission Readiness

Took Kit Purchased Separately *(Part number 490023-1)* and Front Mount Squeegee Optional *(Part number 470200)*

## Accessories:

- Wide Variety of tools and attachments available
- 27 ½" Front mount squeegee assembly

## Markets

- Acute Care Facilities
- Nursing Homes
- Clinics
- Laboratories
- Ambulatory Surgery Centers
- Veterinary Hospitals

## Applications

- Isolation Wards
- Operating Rooms
- Critical Care Environments
- HazMat Recovery
- Bloodborne Pathogen Containment
- Flood Control
