

Insta's Heat Press Trade-In Program

Would you like to Trade-In or upgrade your current heat press machine, either an Insta or another machine brand, for a new Insta heat press machine? Then for a limited time, our Trade-In Program is for you. Here's how it works:

- 1) Complete the **Heat Press Trade-In Registration Form** below. Please be sure to include the requested information about your current machine AND indicate the new Insta machine you would like to purchase using your Trade-In. This should be returned to info@instagraph.com.
- 2) Within 2 business days, Insta will reply via e-mail, providing a Quote Number (for future communications), an estimated Trade-In value for your machine, and shipping and/or delivery instructions to have your machine brought to Insta's offices in Cerritos, CA.
- 3) You will have 10 days to have your machine delivered to Insta, or the Quote Number will expire and you will need to re-submit your information to Insta for the Trade-In Program.
- 4) Once your machine is received, within 5 business days your machine will be inspected, approved to qualify as a Trade-In, and the value of your Trade-In will be confirmed.
- 5) An Insta sales representative will contact you to finalize the purchase of your new Insta machine with the trade-in value applied to the purchase price.
