

Hands Free Label & Logo Press

Insta's solution for high speed label application!

Insta Design Advantages

Pic-n-Place Unit Insta's Pic n' Place unit holds a stack of cut piece labels or logos in its hopper. When the machine is activated, the automated arm lifts a single label from the hopper, places it in a preset position on the platen and then the heated upper platen drops down to apply the transfer. The Pic n' Place unit holds labels ranging in size from 1.5" x 1.5" to 4.5" x 4.5".

Central Pressure Source The pressure source is strategically placed over the center of the upper platen and uses struts to drive that pressure out to all corners. The result is an even and heavy duty distribution of pressure that is unmatched by other heat presses in the market today.

Solid as a Rock Construction

High Quality/High Value

Machines made from cast metal are considered to be the highest quality and are strong enough to withstand heavy use without warping or bending.

Return on Investment

The Insta 929 is extremely durable and, if cared for properly, can last for many years to come. Step up to an Insta - you'll be glad you did!

Working Space Dimensions

- Depth: 22" (55.88 cm)
- Width: 32.75" (83.18 cm)
- Height: 19" (48.26 cm)
- Power: 120 volt - 1000 Watts, 8.3 Amps
230 volt - 920 Watts, 4.0 Amps
- Shipping Weight: 118 lbs (53.52 kilos)

Product Features:

- Automatic label placement device
- Average label throughput = 300 labels per hour
- Optional foot pedal allows for complete hands-free operation
- 6" x 6" platen with small accessory platen 2.5" x 2.5" option
- Built in cycle counter displays up to 9999 applications
- Built solid as a rock to endure 24 hour work cycles, seven days a week!

Operator Benefits

Hands Free Operation The foot pedal attachment is an optional accessory that allows you operate the Insta 929 completely hands-free. When the foot pedal is activated, a label is picked up from the hopper, placed on the platen and then the heated platen is brought down to apply the transfer.

Enhanced Productivity The Insta 929 produces consistent results and reduces costly errors. Operators experience less stress, reduced fatigue and enhanced productivity.
