## Super Adjustable Super Erecta® Shelf Adjustable Wire Shelving

Super Adjustable Super Erecta® Wire Shelving is the most advanced and innovative wire storage system available.

- **Easily Adjustable:** The shelf's Corner Release System and SiteSelect® Posts enable "tool-free", quick adjustment at 1" (25mm) increments along the entire height of the post.
- **Maximum Space Utilization:** The Corner Release System encourages repositioning of shelves during initial assembly to reclaim wasted vertical space. Reclaimed vertical space may allow an extra shelving tier to be added to the storage unit.
- **Easily Assembled:** The unique Corner Release System enables quick and easy repositioning of shelves during the initial set up to accommodate different package or container sizes. "Total Assembly" is complete only after the shelves are properly spaced to maximize storage. SiteSelect® Posts, with the double-groove visual guide feature, have circular grooves at 1" (25mm) increments and are numbered at 2" (51mm) intervals to easily identify proper shelf locations.
- **Improved Rigidity:** An enhanced Corner Release System has made Super Adjustable the most rigid, easily adjustable shelving system ever.
- **Strong:** Super Adjustable shelves hold as much weight as traditional Super Erecta wire shelving. Stationary units hold a maximum of 2,000lb. (910kg). Maximum weight capacity per shelf (48" [1219mm] or shorter = 800 lb. [364kg]; longer than 48" [1219mm] = 600 lb. [273kg]).
- **Choice of Finishes:** Chrome-plated for dry storage; Metroseal Green with Microban® antimicrobial product protection that helps fight the growth of stain and odor-causing bacteria to keep product cleaner between cleanings, with a 15-year limited warranty against rust and corrosion (NSF listed for wet environments), and Type 304 stainless steel (NSF listed for wet environments).
- **Accessories:** Compatible with the entire system of Super Erecta shelves and accessories.
