

INSTRUCTIONS

Note: The diagram illustrates the installation of your new luminary. This is a representative drawing and is not intended to match the style of your luminary.

Assembly:

1. Make sure that your lamp is not plugged into the electrical outlet.
2. Insert the light bulb "A" into the socket "B".
CAUTION - Refer to the wattage caution label located near the lamp holder for recommended maximum wattage-do not exceeds recommended wattage.
WARNING - Do not attempt to replace the bulb while the lamp is plugged into a wall receptacle.
3. Squeeze the two spring clips "C" and insert them into the glass shade "D". Please note: The spring clips are designed to properly hold this style of shade, make sure you proceed with caution to avoid getting your fingers pinched.
4. Plug the electrical cord into an outlet and turn on the lamp with the line switch.

WARNING

Keep this lamp away from small children.
It is not a toy.

CARE INSTRUCTION: Dry cloths clean only; do not use water.

Important Safety Instruction

This portable lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of the electric shock. This plug will fit in a polarized outlet only one way. If it does not fit in the outlet, reverse the plug. If it still does not fit, consult a qualified electrician. Never use an extension cord unless the plug can be fully inserted. Do not alter the plug.
