

The versatile 39 Series utility trucks are rotationally molded for long-lasting durability in a variety of facilities, indoors and outdoors. 39-14 Bu shown.

The entire line of 39 Series utility trucks is available with our ergonomic, springloaded platform that rises to reduce bending and reaching. 39-14 Bu shown.

For extra load-bearing strength, 39 Series utility trucks include galvanized, metal bases as standard. 39-14 Bu shown, nested for storage.

Overview: The multi-purpose 39 Series Utility-Trux are an ergonomic, economical and dependable option for laundries, hospitals, hotels, health clubs, aquatic facilities, and industrial facilities.

Benefits: The rounded roll-top rim combined with a pan metal base on this light duty unit helps keep team members safe and productive. The optional spring-platform adds to the versatility of these Utility-Trux while supporting ergonomics on the job. The entire 39 Series of Utility-Trux (39-6, 39-8, 39-12, 39-14, 39-16, 39-18, 39-20) can be fitted with a hanging spring-loaded platform that rises as goods are removed to keep work positioned at the right height and reduce bending and reaching. The spring platform encases smooth, waterproof vinyl around a rigid, plywood platform to handle a variety of products. All 39 Series Utility-Trux nest when empty for space-saving storage and transport. It is made of the stronger and lighter High Density Polyethylene (HDPE) compared to Linear Low Density Polyethylene (LLDPE), common with many competitors. And the 39 Series, like all Meese carts, has a metal free interior to avoid leaks, snags, tears, and damage to the contents of the cart.

Standard Features

- Rotationally molded from waterproof, chemical-resistant High Density polyethylene (HDPE)
- Durable, .225" wall thickness
