Email info@diarect.com

Section 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE

Product Name: Cytochrome P450 2D6 (LKM 1 hp)
Catalog Number: 19800/19801/19805
Relevant identified uses: For research use or manufacturing only.
Emergency telephone number: Poison Control Center Freiburg, Germany
Tel. +49 761 19240 (24 hours)

Section 2: HAZARDS IDENTIFICATION

Classification: This substance does not need to be classified according to regulation (EC) No. 1272/2008, or directives 67/548/EEC and 1999/45/EC.
Label: This product does not need to be labeled in accordance with EC directives or respective national laws.

Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

General information: Aqueous solution of Cytochrome P450 2D6 (CYP1D6).
Ingredients: According to regulation (EC) No. 1272/2008, hazardous and carcinogenic ingredients with a concentration of less than 1% and 0.1%, respectively, are not considered "relevant ingredients". Hazardous and carcinogenic ingredients that exceed these criteria are listed below.

Ingredient	Cas No.	EC No.	Concentration
Glycerol	56-81-5	200-289-5	15%
Sodium Chloride	7647-14-5	231-598-3	< 3.0%
Triton X-100	9036-19-5	N.A.	1%

Section 4: FIRST AID MEASURES

General information: Consult a physician and show this safety data sheet.
Inhalation: Remove to fresh air and monitor breathing. Consult a physician.
Skin contact: Wash skin immediately with soap and copious amounts of water. Remove contaminated clothing and shoes and wash before wearing. Consult a physician.

Section 4: FIRST AID MEASURES (continued)

Eye contact:	Flush eyes immediately with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eyelids with fingers. Consult a physician.
Ingestion:	If the person is conscious, wash out mouth with water. Consult a physician.
First aider:	Wear suitable protective clothing, such as chemical resistant gloves and chemical safety goggles. Use a NIOSH/MSHA approved respirator. Handle in laboratory with adequate ventilation.
Most important symptoms and effects:	May be harmful by inhalation, ingestion or skin absorption. May cause irritation. Prolonged or repeated contact may cause allergic or autoimmune reactions in certain sensitive individuals. Toxicological properties have not been thoroughly investigated.

Section 5: FIREFIGHTING MEASURES

Extinguishing media:	Use extinguishing media appropriate to surrounding fire conditions (dry chemical powder, carbon dioxide or water spray recommended).
Hazardous Combustion or Decomposition Products:	Nature of decomposition products not known.
Advice for firefighters:	Wear self-contained breathing apparatus and full protective clothing to prevent contact with skin and eyes.

Section 6: ACCIDENTAL RELEASE MEASURES

For non-emergency personnel:	Evacuate area. Wear suitable protective clothing, such as chemical resistant gloves and chemical safety goggles. Use a NIOSH/MSHA approved respirator. Handle in laboratory with adequate ventilation.
For emergency responders:	Wear suitable protective clothing, such as chemical resistant gloves and chemical safety goggles. Use a NIOSH/MSHA approved respirator. Handle in laboratory with adequate ventilation.
Environmental precautions:	Do not let product enter drains.
Containment:	Place in a suitable, closed bag/container. Avoid raising dust. Hold for appropriate waste disposal.
Cleaning up:	Sweep up, avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

Section 7: HANDLING AND STORAGE

Handling:	Avoid contact and inhalation. Keep container closed and open only as necessary. Wear protective equipment and follow general precautionary procedures applying to working in a laboratory/industrial environment (e.g. wash hands after handling). Follow general rules/regulations of laboratory waste disposal.
Storage:	Store at or below -70°C.

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls:	Handle in laboratory with adequate ventilation.
Personal protection equipment	
Eye and face protection:	Wear chemical safety goggles according to appropriate standards such as EN 166 (EU) NIOSH or (US).
Skin protection:	Wear chemical resistant gloves, which meet the specifications of directive 89/686/EEC. Wear suitable protective clothing according to the planned work and specific work-place.
Respiratory protection:	Use a CEN (EU) or NIOSH/MSHA (US) approved respirator.
Environmental exposure controls:	Do not let product enter drains.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Clear solution
Physical State:	Liquid

Section 10: STABILITY AND REACTIVITY

Chemical stability:	Stable under recommended storage conditions.
Hazardous decomposition products:	Nature of decomposition products not known.
Hazardous polymerization:	Mixture will not form hazardous polymers.

Section 11: TOXICOLOGICAL INFORMATION

General information:	Only those hazardous and carcinogenic ingredients of the mixture are listed, which are present in a concentration of at least 1% and 0.1%, respectively. Test data are only available for individual ingredients. The physical, chemical and toxicological characteristics of the mixture have not been thoroughly investigated.
-----------------------------	--

Section 11: TOXICOLOGICAL INFORMATION (continued)
--

Glycerol

Acute toxicity:	LD50 oral (rat) 12600 mg/kg LD50 dermal (rabbit) > 10000 mg/kg
Skin corrosion/irritation:	Mild skin irritation – 24h (skin, rabbit)
Eye damage/irritation:	Mild eye irritation – 24h (eyes, rabbit)
Carcinogenicity:	No component or substance of this product at levels greater or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
Chronic exposure:	Extensive exposure may cause headache, nausea and vomiting.
Target organ(s):	May cause kidney irregularities.

Sodium Chloride

Acute toxicity:	LD50 oral (rat) 3000 mg/kg LD50 dermal (rabbit) > 10000 mg/kg
Skin corrosion/irritation:	Skin irritation on prolonged or repeated contact (skin, rabbits).
Eye damage/irritation:	Mild eye irritation (eyes, rabbits).
Carcinogenicity:	No component or substance of this product at levels greater or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
Chronic exposure:	No data available.
Target organ(s):	Not classified as specific target organ toxicant.
Additional information:	May cause nausea or vomiting after swallowing.

Triton X-100

Acute toxicity:	LD50 oral (rat) 1900 - 5000 mg/kg LD50 dermal (rabbit) > 3000 mg/kg
Skin corrosion/irritation:	Mild skin irritation (skin, rabbit)
Eye damage/irritation:	Severe eye irritation – 24h (eyes, rabbit)
Carcinogenicity:	No component or substance of this product at levels greater or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
Chronic exposure:	No data available.
Target organ(s):	Not classified as specific target organ toxicant.
Additional information:	May cause irritations in the mouth, nausea or vomiting, gastrointestinal complaints or lung damage after swallowing.

Mixture

Chronic exposure:	Prolonged or repeated exposure to the mixture may cause allergic or autoimmune reactions in certain sensitive individuals.
Carcinogenicity:	No component or substance of this product at levels greater or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

Section 12: ECOLOGICAL INFORMATION

Sodium Chloride

Aquatic toxicity: LC50 7650 mg/l – 96h (*Pimephales promelas*)
EC50 1000 mg/l – 48h (*Daphnia magna*)

Triton X-100

Aquatic toxicity: LC50 4 – 8.9 mg/l – 96h (*Pimephales promelas*)
EC50 18 - 26 mg/l – 48h (*Daphnia magna*)

Other information: Product is biodegradable (> 60% - 28d).

Section 13: DISPOSAL CONSIDERATIONS

Product/packaging disposal: Due to the biological nature of this product and as good laboratory practice, we recommend that its disposal includes a biological inactivation step (e.g. by autoclaving, incineration, etc.), even though the biohazard properties of the product do not make such a step mandatory.

Sewage disposal-relevant information:

Waste should not be disposed of by release to sewer.

Other disposal recommendations:

Country, federal, state and local regulations concerning disposal vary and change frequently. It remains the responsibility of the waste treatment operator to comply with these regulations. For this reason, we recommend that you contact your authorities for information on the disposal of this product and observe any applicable regulations. Alternatively, arrange for disposal by a licensed disposal company.

Section 14: TRANSPORT INFORMATION

This product is not hazardous and no precautionary steps according to ADR/RID, IMDG, and IATA are necessary.

Section 15: REGULATORY INFORMATION

General information: This safety datasheet was generated according to Regulations (EC) No 1907/2006 and 1272/2008.

Safety, health and environmental regulations/legislation specific for the substance or mixture:

Not known.

Chemical safety assessment: Not carried out.

Section 16: Other information

Caution: Product has not been fully tested. Based on general health and good laboratory practice considerations, the observation of the following hazard and precautionary statements is recommended:

Hazard Statements:

H302	Harmful if swallowed
H312	Harmful in contact with skin
H332	Harmful if inhaled

Precautionary Statements:

P262	Do not get in eyes, on skin, or on clothing
P305+P351	
+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P280	Wear protective gloves/protective clothing/eye protection/face protection
P281	Use personal protective equipment as required

Disclaimer: Material should only be handled by qualified, experienced professionals. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide for experienced personnel. This product is intended for research use or manufacturing only. DIARECT AG shall not be held liable for any damage resulting from the handling or from contact with the above product.
