Backup number: +1-703-527-3887

**SECTION 2: Hazard Identification****Classification of the chemical in accordance with paragraph (d) of § 1910.1200:**

Skin sensitization, category 1A

Reproductive toxicity, category 1B

**Label elements****Hazard Symbol(s):****Signal Word:** Danger**Hazard statement(s):**

H317 May cause an allergic skin reaction.

H360 May damage fertility or the unborn child.

**Precautionary Statement(s):**

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and understood.

P261 Do not breathe mist, vapors or spray.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves, protective clothing, eye protection and face protection.

P308+P313 If exposed or concerned: Get medical advice.

P302+P352 IF ON SKIN: Wash with plenty of water.

P333+P313 If skin irritation or rash occurs: Get medical advice.

# Safety Data Sheet

US Hazard Communication Standard 2024 (29 CFR 1910.1200)

Initial Preparation Date: 04.24.2026

Page 2 of 10

## BioFX™ (SB04) StabilBlot Milk Blocker Solution--10X

P321 Specific treatment (see Sections 4-8 of this SDS and any supplemental information on the product label).

P362+P364 Take off contaminated clothing and wash it before reuse.

P405 Store locked up.

P501 Dispose of contents and container in accordance with local, regional, national, and international regulations.

**Hazards Not Otherwise Classified:** None.

## SECTION 3: Composition/Information on Ingredients

| Identification            | Name                                                                            | Weight % |
|---------------------------|---------------------------------------------------------------------------------|----------|
| CAS Number:<br>1303-96-4  | Sodium Tetraborate                                                              | 1-5      |
| CAS Number:<br>55965-84-9 | 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | 0.0018   |

**Additional information:** No additional information.

## SECTION 4: First Aid Measures

### Description of Necessary Measures

#### General Notes:

Show this Safety Data Sheet to the doctor in attendance.

#### After Inhalation:

If inhaled, remove person to fresh air and place in a position comfortable for breathing. Keep person at rest. If breathing is difficult, administer oxygen. If breathing has stopped, provide artificial respiration. If experiencing respiratory symptoms, seek medical advice/attention.

#### After Skin Contact:

Not determined or not applicable.

#### After Eye Contact:

Rinse eyes with plenty of gently flowing lukewarm water for 15 minutes. Remove contact lenses if present and easy to do so. Protect unexposed eye. If symptoms develop or persist, seek medical advice/attention.

#### After Ingestion:

If swallowed, DO NOT induce vomiting unless told to do so by a physician or poison control center. Rinse mouth with water. Never give anything by mouth to an unconscious person. If spontaneous vomiting occurs, place on the left side with head down to prevent aspiration of liquid into the lungs. If symptoms develop or persist, seek medical advice/attention.

### Most Important Symptoms and Effects, Both Acute and Delayed

#### Acute Symptoms and Effects:

Dermal exposure may cause an allergic skin reaction. Symptoms may include irritation, redness, pain, rash, inflammation, itching, burning and dermatitis.

#### Delayed Symptoms and Effects:

Long term exposure may affect fertility. Symptoms include, but are not limited to: menstrual problems, altered sexual behavior/fertility/ and pregnancy outcome. Long term exposure may also affect development of the unborn child. Symptoms include, but are not limited to: intrauterine growth retardation, pre-term birth, birth defects and postnatal death.

Effects are dependent on exposure (dose, concentration, contact time). Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary Immediate Medical Attention: No additional information.

#### Special Treatment:

No additional information.

#### Notes for the Doctor:

Treat symptomatically.

## Safety Data Sheet

US Hazard Communication Standard 2024 (29 CFR 1910.1200)

Initial Preparation Date: 04.24.2026

Page 3 of 10

### BioFX™ (SB04) StabilBlot Milk Blocker Solution--10X

#### SECTION 5: Firefighting Measures

##### Extinguishing Media

###### Suitable Extinguishing Media:

Water mist/fog, carbon dioxide, dry chemical or alcohol resistant foam.

###### Unsuitable Extinguishing Media:

Do not use water jet.

##### Specific Hazards Arising from the Chemical:

Thermal decomposition may produce irritating/toxic fumes/gases.

##### Special Protective Equipment and Precautions for Fire-Fighters

###### Special Protective Equipment:

Not determined or not applicable.

###### Special Precautions

Avoid contact with skin, eyes, hair and clothing. Do not breathe fumes/gas/mists/aerosols/vapors/dusts. Move containers from fire area if safe to do so. Use water spray/fog for cooling fire exposed containers. Avoid unnecessary run-off of extinguishing media which may cause pollution.

#### SECTION 6: Accidental Release Measures

##### Personal Precautions, Protective Equipment, and Emergency Procedures:

Evacuate unnecessary personnel. Ventilate area. Extinguish any sources of ignition. Wear recommended personal protective equipment (see Section 8). Avoid contact with skin, eyes and clothing. Avoid breathing mist, vapor, dust, fume and spray. Do not walk through spilled material. Wash thoroughly after handling.

##### Environmental Precautions:

Prevent further leakage or spillage if safe to do so. Prevent from reaching drains, sewers and waterways. Discharge into the environment must be avoided.

##### Methods and Material for Containment and Cleaning Up:

Do not touch damaged containers or spilled material unless wearing appropriate personal protective clothing. Stop leak if you can do it without risk. Contain and collect spillage and place in suitable container for future disposal. Dispose of in accordance with all applicable regulations (see Section 13).

#### SECTION 7: Handling and Storage

##### Precautions for Safe Handling:

Use appropriate personal protective equipment (see Section 8). Use only with adequate ventilation. Avoid breathing mist/vapor/spray/dust. Do not eat, drink, smoke, or use personal products when handling chemical substances. Avoid contact with skin, eyes and clothing. Wash affected areas thoroughly after handling. Keep away from incompatible materials (See Section 10). Keep containers tightly closed when not in use.

##### Conditions for Safe Storage, Including Any Incompatibilities:

Store refrigerated. Protect from freezing and physical damage. Store away from heat, open flames and other sources of ignition. Keep container tightly sealed. Store away from incompatible materials (See Section 10).

#### SECTION 8: Exposure Controls/Personal Protection

Only those substances with limit values have been included below.

##### Occupational Exposure Limit Values:

| Country (Legal Basis) | Substance          | Identifier | Permissible concentration                                                             |
|-----------------------|--------------------|------------|---------------------------------------------------------------------------------------|
| ACGIH                 | Sodium Tetraborate | 1303-96-4  | 8-Hour TWA: 2 mg/m <sup>3</sup> (Borate compounds, inorganic, inhalable fraction)     |
|                       | Sodium Tetraborate | 1303-96-4  | 15-Minute STEL: 6 mg/m <sup>3</sup> (Borate compounds, inorganic, inhalable fraction) |

## Safety Data Sheet

US Hazard Communication Standard 2024 (29 CFR 1910.1200)

Initial Preparation Date: 04.24.2026

Page 4 of 10

### BioFX™ (SB04) StabilBlot Milk Blocker Solution--10X

|                            |                    |           |                                                                    |
|----------------------------|--------------------|-----------|--------------------------------------------------------------------|
| NIOSH                      | Sodium Tetraborate | 1303-96-4 | 8-Hour TWA: 5 mg/m <sup>3</sup>                                    |
| United States (California) | Sodium Tetraborate | 1303-96-4 | 8-Hour TWA-PEL: 5 mg/m <sup>3</sup> (Borates, tetra, sodium salts) |
| OSHA                       | Sodium Tetraborate | 1303-96-4 | 8-Hour TWA: 10 mg/m <sup>3</sup>                                   |

#### Biological Limit Values:

No biological exposure limits noted for the ingredient(s).

#### Information on Monitoring Procedures:

Not determined or not applicable.

#### Appropriate Engineering Controls:

Emergency eye wash stations and safety showers should be available in the immediate vicinity of use or handling. Provide adequate ventilation to maintain the airborne concentrations of vapor, mists, and/or dusts below the applicable workplace exposure limits, while observing recognized national standards (or equivalent).

#### Individual Protection Measures, Such as Personal Protective Equipment

##### Eye and Face Protection:

Safety glasses or goggles. Use eye protection equipment that has been tested and approved by recognized national standards (or equivalent).

##### Skin and Body Protection:

Chemical resistant, impervious gloves approved by the appropriate standards. Gloves must be inspected prior to use. Avoid skin contact with used gloves. Appropriate techniques should be used to remove used gloves and contaminated clothing. Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Ensure that all personal protective equipment is approved by recognized national standards (or equivalent).

##### Respiratory Protection:

If engineering controls do not maintain airborne concentrations below the applicable workplace exposure limits, or to an acceptable level (if exposure limits have not been established), a respirator approved by recognized national standards (or equivalent) must be worn.

#### General Hygienic Measures:

When handling chemical products, do not eat, drink or smoke. Wash hands after handling, before breaks, and at the end of the workday. Avoid contact with skin, eyes and clothing. Wash contaminated clothing before reuse. Perform routine housekeeping.

## SECTION 9: Physical and Chemical Properties

#### Information on Basic Physical and Chemical Properties

|                                         |                                 |
|-----------------------------------------|---------------------------------|
| Physical state                          | Liquid.                         |
| Color                                   | Colorless to translucent white. |
| Odor (includes odor threshold)          | No data available.              |
| Melting point/freezing point            | No data available.              |
| Initial boiling point/range             | 100 °C.                         |
| Flammability                            | Not flammable.                  |
| Upper flammability/explosive limit      | Product is not explosive.       |
| Lower flammability/explosive limit      | Product is not explosive.       |
| Flash point                             | No data available.              |
| Auto-ignition temperature               | No data available.              |
| Decomposition temperature               | No data available.              |
| pH                                      | Acidic.                         |
| Kinematic viscosity                     | No data available.              |
| Solubilities                            | Complete solubility in water.   |
| Partition coefficient (n-octanol/water) | No data available.              |

## Safety Data Sheet

US Hazard Communication Standard 2024 (29 CFR 1910.1200)

Initial Preparation Date: 04.24.2026

Page 5 of 10

### BioFX™ (SB04) StabilBlot Milk Blocker Solution--10X

|                                            |                    |
|--------------------------------------------|--------------------|
| Vapor pressure (includes evaporation rate) | No data available. |
| Density and/or relative density            | No data available. |
| Relative vapor density                     | No data available. |
| Particle characteristics                   | No data available. |

#### Other Information

|                      |                                        |
|----------------------|----------------------------------------|
| Oxidizing properties | Not an Oxidizer.                       |
| Appearance           | Colorless to translucent white liquid. |

### SECTION 10: Stability and Reactivity

#### Reactivity:

Not reactive under recommended handling and storage conditions.

#### Chemical Stability:

Stable under recommended handling and storage conditions.

#### Possibility of hazardous reactions, including those associated with foreseeable emergencies:

Hazardous reactions are not anticipated under recommended conditions of handling and storage.

#### Conditions to Avoid:

Extreme heat, open flames, hot surfaces, sparks, ignition sources and incompatible materials.

#### Incompatible Materials:

None known.

#### Hazardous Decomposition Products:

Hazardous fumes of nitrous oxides (NOx) and carbon oxides.

### SECTION 11: Toxicological Information

#### Acute Toxicity

**Assessment:** Based on available data, the classification criteria are not met.

**Product Data:** No data available.

#### Substance Data:

| Name                                                                            | Route      | Result                                                         |
|---------------------------------------------------------------------------------|------------|----------------------------------------------------------------|
| Sodium Tetraborate                                                              | oral       | LD50 Rat: 3493 mg/kg ([Read-across substance data])            |
|                                                                                 | dermal     | LD50 Rabbit: > 10,000 mg/kg ([Read-across substance data])     |
|                                                                                 | inhalation | LC50 Rat: >2.04 mg/L (4 hr [dust, Read-across substance data]) |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | oral       | LD50 Rat: 66 mg/kg                                             |
|                                                                                 | inhalation | LC50 Rat: 0.33 mg/L (4 hr [aerosol])                           |
|                                                                                 | dermal     | LD50 Rabbit: 87.12 mg/kg                                       |

#### Skin Corrosion/Irritation

**Assessment:** Based on available data, the classification criteria are not met.

**Product Data:** No data available.

#### Substance Data:

| Name                                                                            | Result                    |
|---------------------------------------------------------------------------------|---------------------------|
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | Causes severe skin burns. |

#### Serious Eye Damage/Irritation

##### Assessment:

Based on available data, the classification criteria are not met.

**Product Data:** No data available.

**BioFX™ (SB04) StabilBlot Milk Blocker Solution--10X**

### Substance Data:

| Name                                                                            | Result                         |
|---------------------------------------------------------------------------------|--------------------------------|
| Sodium Tetraborate                                                              | Causes serious eye irritation. |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | Causes serious eye damage.     |

### Respiratory or Skin Sensitization

#### Assessment:

May cause an allergic skin reaction.

**Product Data:** No data available.

#### Substance Data:

| Name                                                                            | Result                               |
|---------------------------------------------------------------------------------|--------------------------------------|
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | May cause an allergic skin reaction. |

### Carcinogenicity

**Assessment:** Based on available data, the classification criteria are not met.

**Product Data:** No data available.

**Substance Data:** No data available.

#### International Agency for Research on Cancer (IARC):

| Name                                                                            | Classification |
|---------------------------------------------------------------------------------|----------------|
| Sodium Tetraborate                                                              | Group 2A       |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | Not Applicable |

#### National Toxicology Program (NTP):

| Name                                                                            | Classification |
|---------------------------------------------------------------------------------|----------------|
| Sodium Tetraborate                                                              | Not Applicable |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | Not Applicable |

**OSHA Carcinogens:** Not applicable.

### Germ Cell Mutagenicity

**Assessment:** Based on available data, the classification criteria are not met.

**Product Data:** No data available.

**Substance Data:** No data available.

### Reproductive Toxicity

#### Assessment:

May damage fertility or the unborn child.

**Product Data:** No data available.

#### Substance Data:

| Name               | Result                                    |
|--------------------|-------------------------------------------|
| Sodium Tetraborate | May damage fertility or the unborn child. |

### Specific Target Organ Toxicity (Single Exposure)

**Assessment:** Based on available data, the classification criteria are not met.

**Product Data:** No data available.

**Substance Data:** No data available.

### Specific Target Organ Toxicity (Repeated Exposure)

**Assessment:** Based on available data, the classification criteria are not met.

| Name                                                                            | Result                                                                                    |
|---------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | Fish NOEC Danio rerio: $\geq 0.0464$ mg/L (35 d [hatching, mortality, length and weight]) |
|                                                                                 | Aquatic Invertebrates NOEC Daphnia magna: $>0.1$ mg/L (21 d [mortality])                  |

#### Persistence and Degradability

**Product Data:** No data available.

##### Substance Data:

| Name                                                                            | Result                                                                                                                     |
|---------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Sodium Tetraborate                                                              | Persistence assessment based on biodegradability is not relevant for inorganic compounds such as this substance.           |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | The substance is readily biodegradable but failing 10-day window. 62% degradation measured by CO2 evolution after 29 days. |

### BioFX™ (SB04) StabilBlot Milk Blocker Solution--10X

#### Bioaccumulative Potential

**Product Data:** No data available.

##### Substance Data:

| Name                                                                            | Result                                                                                                                               |
|---------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Sodium Tetraborate                                                              | Bioaccumulation assessment using a classic BCF assessment is not considered relevant for inorganic compounds such as this substance. |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | The substance is not expected to bioaccumulate (BCF: 41 dimensionless, basis: whole body w.w., species: Lepomis macrochirus).        |

#### Mobility in Soil

**Product Data:** No data available.

##### Substance Data:

| Name                                                                            | Result                                                                                                               |
|---------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Sodium Tetraborate                                                              | Mobility in soil assessment based on KOC/Kd values are not relevant for inorganic compounds such as this substance.  |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | The substance is highly mobile, therefore, adsorption to soil and sediment is not expected (Koc: 6.4 dimensionless). |

#### Results of PBT and vPvB assessment

##### Product Data:

**PBT assessment:** This product does not contain any substances that are assessed to be a PBT.

**vPvB assessment:** This product does not contain any substances that are assessed to be a vPvB.

##### Substance Data:

###### PBT assessment:

|                                                                                 |                                                                              |
|---------------------------------------------------------------------------------|------------------------------------------------------------------------------|
| Sodium Tetraborate                                                              | PBT assessment does not apply to inorganic compounds such as this substance. |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | The substance is not PBT.                                                    |

###### vPvB assessment:

|                                                                                 |                                                                               |
|---------------------------------------------------------------------------------|-------------------------------------------------------------------------------|
| Sodium Tetraborate                                                              | vPvB assessment does not apply to inorganic compounds such as this substance. |
| 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | The substance is not vPvB.                                                    |

**Other Adverse Effects:** No additional information.

### SECTION 13: Disposal Considerations

#### Disposal Methods:

Waste treatment methods: Obtain the consent of pollution control authorities before discharging to wastewater treatment plants.

Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations. Do not allow the product to be released into the environment.

#### Contaminated packaging:

Do not reuse empty containers.

### SECTION 14: Transport Information

#### United States Transportation of Dangerous Goods (49 CFR DOT)

|                               |               |
|-------------------------------|---------------|
| UN Number                     | Not regulated |
| UN Proper Shipping Name       | Not regulated |
| UN Transport Hazard Class(es) | None          |
| Packing Group                 | None          |
| Environmental Hazards         | None          |
| Special Precautions for User  | None          |

#### International Maritime Dangerous Goods (IMDG)

|                               |               |
|-------------------------------|---------------|
| UN Number                     | Not regulated |
| UN Proper Shipping Name       | Not regulated |
| UN Transport Hazard Class(es) | None          |
| Packing Group                 | None          |
| Environmental Hazards         | None          |
| Special Precautions for User  | None          |

#### International Air Transport Association Dangerous Goods Regulations (IATA-DGR)

|                               |               |
|-------------------------------|---------------|
| UN Number                     | Not regulated |
| UN Proper Shipping Name       | Not regulated |
| UN Transport Hazard Class(es) | None          |
| Packing Group                 | None          |
| Environmental Hazards         | None          |
| Special Precautions for User  | None          |

#### Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

|                    |                |
|--------------------|----------------|
| Bulk Name          | Not Applicable |
| Ship Type          | Not Applicable |
| Pollution Category | Not Applicable |

### SECTION 15: Regulatory Information

#### United States Regulations

##### Inventory Listing (TSCA):

|            |                                                                                 |                 |
|------------|---------------------------------------------------------------------------------|-----------------|
| 1303-96-4  | Sodium Tetraborate                                                              | Listed - Active |
| 55965-84-9 | 5-chloro-2-methyl-3(2H)-isothiazolone mixture with 2-methyl-3(2H)-isothiazolone | Not Listed      |

Significant New Use Rule (TSCA Section 5): None of the ingredients are listed.

Export Notification under TSCA Section 12(b): None of the ingredients are listed.

SARA Section 302 Extremely Hazardous Substances: None of the ingredients are listed.

SARA Section 313 Toxic Chemicals: None of the ingredients are listed.

CERCLA: None of the ingredients are listed.

RCRA: None of the ingredients are listed.

Section 112(r) of the Clean Air Act (CAA): None of the ingredients are listed.

##### Massachusetts Right to Know:

|           |                                |        |
|-----------|--------------------------------|--------|
| 1303-96-4 | Sodium Tetraborate             | Listed |
| 56-81-5   | Glycerol                       | Listed |
| 1303-96-4 | Sodium tetraborate decahydrate | Listed |
