

RHINO
CLEANING MACHINES

19PD

19" PAD DRIVE FLOOR SCRUBBER

HIGH-PRODUCTIVITY CLEANING

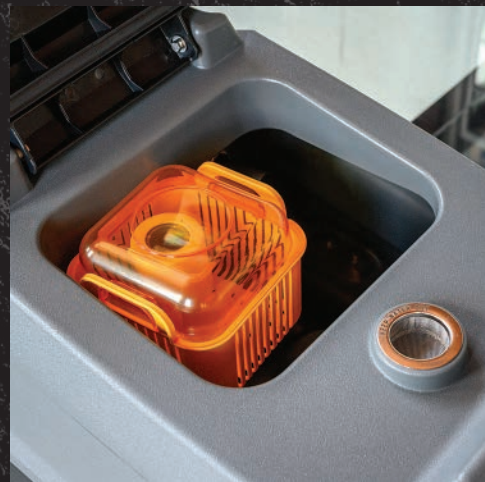

The 19" cleaning path is ideal for 10,000–25,000 sq ft facilities including schools, medical offices, retail and light warehouse spaces.

CUSTOMIZABLE CLEANING

Control water flow to match soil conditions and floor type. Easily adapt for sealed concrete, tile, VCT and other hard surfaces.

PAD ASSIST PROPULSION

The rotating brush helps to pull the machine forward during operation. Without a separate drive motor, the 19PD has fewer moving parts, lower maintenance and additional reliability.

SPECIFICATIONS:

Model Number	ENRH19PD
UPC	783970420435
Scrub Path	19"
Solution Tank Size	11 Gal
Recovery Tank Size	12 Gal
Run time	Up to 3 hours
Productivity (sq ft/hour)	20,000 (theoretical), 11,000 (practical)
Brush Motor	400W
Vacuum Motor	400W
Dimensions (L x W x H)	49.21" x 20.5" x 42.91"

COMES WITH:

19" Brush & Pad
Holder Options

12 V 95Ah Lead
Acid Batteries (x2)

Schauer Automatic
Battery Charger

WARRANTY: 5 years on rotationally molded components, 1 year parts, 1 year pro-rated battery coverage, and 6 months labor.
