

PRODUCT SPECIFICATION

Cook's Brand Gravity Conveyors

features

Cook's Brand stainless steel gravity conveyor line, engineered expressly to improve speed during tray make-up, features no motor or belts for inmates to break making this a safe and long lasting solution for meal production. Because of the innovative non-mechanical design, this conveyor will provide years of trouble free service even in the toughest correctional facilities. Cook's Brand stainless steel gravity conveyor comes in 10 different sizes to meet your specific facility's needs.

Cook's Brand

Products designed for the toughest environments

STANDARD FEATURES

SUPERIOR DURABILITY: Frame is constructed entirely out of 14 gauge stainless steel including a welded conveyor pan with coved corners.

DESIGNED FOR CORRECTIONS: Rollers are constructed so that shafts cannot be removed and used as a weapon unlike other manufacturers conveyors. Additionally, there are no motorized parts to break down, this unique design decreases the chance for inmates to cause costly damage.

EASY TO MOVE: 5" swivel casters with brakes make it easy to fix in place or move out of the way when tray make up is complete.

IMPROVED SANITATION: Removable roller assemblies easily lift out for thorough cleaning of rollers and conveyor pan.

WARRANTY: The Gravity Conveyors are backed up by and one year no questions asked warranty.
