When coring and peeling a fresh pineapple is this quick and easy, somehow the glorious, juicy flavor is just a little bit finer. Nemco introduces its latest food-prep innovation—the Easy Pineapple Corer/Peeler.

More Speed, Less Waste

Make no mistake. For all the produce that crosses the food-prep countertop, pineapple ranks among the most challenging... Until now. Nemco's new Easy Pineapple Corer/Peeler changes everything by enabling your employees to:

- Save time completely coring and peeling an entire, straight-from-the-plant pineapple in one smooth cutting stroke.
- Clear the prep work station more quickly and efficiently—in the same single cutting action the entire pineapple outer shell falls off in three large pieces that are easy to grab and throw away.
- Reduce food waste with a cutting tolerance that removes the core, the shell and nothing else.

Friendly to the User

All the stress of cutting a pineapple goes away. Nemco's product design makes for super-easy operation, with features that:

- Increase productivity by reducing operator fatigue, courtesy of a special ergonomic handle.
- Optimize portability and space without sacrificing stability in the cut, courtesy of the unit's suction cup feet.
- Keep the blades away from the operator's hands, courtesy of a locking mechanism that holds the handle in the "up" position while the user loads the pineapple.

Built to Last

Following the Nemco trademark design style, the Easy Pineapple Corer/ Peeler features tough, stainless steel and cast-aluminum construction, and is easily disassembled for cleaning, to maximize performance longevity and lifetime value.

Suggested Uses

The Easy Pineapple Corer/Peeler is the perfect tool for fast-paced, high-volume kitchens looking to capitalize on the popularity of this perfect fruit. Great for operations that use pineapple for sauces, baked goods, salad bars, hams, exotic pizza toppings and more.

General Specifications

For Model No: 55775

Dimensions

Equipment (wx dxh) 11%6" x 1315%6" x 1911%6" Height With Handle in Up Position 29%6" Shipping Carton (wx dxh) 19" x 14" x 22½" Equipment Weight 17.5 lbs. Shipping Weight 21.5 lbs.

Performance Specifications

Produce Size Standard pineapple
Cut size of outer ring (diameter) 3½"
Cut size of inner core (diameter) 1½"

Replacement parts are available through Nemco's 24-hour Zip Program.

Nemco reserves the right to make design, specification or model changes without notice.

Top-down drive and ergonomic handle take the work out of cutting.

Locking mechanism holds the handle/blade in the "up" position while the pineapple is loaded.

Blades are durable stainless steel and easily replaced by removing six screws.
