FFC - FLOATS AND FUEL CELLS, INC OF MEMPHIS, TENNESSEE RECEIVES FAA APPROVAL TO MANUFACTURE REPLACEMENT FUEL CELL BAFFLE BOXES FOR BEECHCRAFT BARON

FFC Manufacturing has received Parts Manufacturing Approval to manufacture replacement baffle boxes for Beechcraft B55, E55, 58, and G58 aircraft (Hawker Beechcraft P/N 36-920015 and 36-920015-2) .

Kevin Brewer, Director of Sales and Marketing for Floats and Fuel Cells, Inc., a Memphis Tennessee Fuel Tank Manufacturer announced that the FAA has granted FFC Manufacturing approval to manufacture replacement fuel cell baffle boxes for the applicable Beechcraft Baron aircraft. This is the latest approval for FFCM bringing the total number of PMA's for the organization to 208.

FFC is the dominant provider of FAA PMA replacement fuel cells for all Beechcraft models.

Hawker Beechcraft P/N's 36-920015 and 36-920015-2 have been supported in the industry for years with overhauled units. Now Beechcraft operators can install new baffle boxes.

"We want to respond to our customer's requests and provide a new alternative." Said Brewer.
