

Communicator Enclosure

Features

- Dimensions: 6 1/4" W x 8 5/8" H x 2 1/2" D
- 16 gauge cold rolled steel construction
- Lift-a-way hinge door secured with CAT 30 keyed lock
- Durable blue finish
- Standard 1/2" and 3/4" EMT knockouts
- PVC mounting plate for Dialer Board*

*Dialer Board sold separately (P/N# SCOMM1)

The Communicator Enclosure was designed specifically to house an optional Dialer Board that allows emergency calls to be sent from a Shield30 Master Command Panel to a standard phone line.

Specifications

The Communicator Enclosure is constructed of 16 gauge cold rolled steel and finished with a durable blue finish. The front cover is engineered with a removable formed lift-a-way hinge and secured with a CAT 30 keyed lock. The interior of the box has a PVC mounting plate designed specifically for a Dialer Board (Dialer Board sold separately P/N# SCOMM1). Overall dimensions measure 6 1/4" wide by 8 5/8" high by 2 1/2" deep. The cabinet includes standard 1/2" and 3/4" EMT knockouts on the top and bottom.
