tierra sol 2021 price list

effective july 1, 2021

revised october 14, 2021

TERMS AND CONDITIONS OF SALE

PRICES

This price list supersedes all past lists. Prices are NET-FOB our warehouse, excluding taxes, and are in effect as of July 1, 2021. Prices terms, conditions, and specifications are those in effect at the time of shipment and are subject to change without notice. Prices do not include any tax.

ORDER ACCEPTANCE

While Tierra Sol does everything possible to meet delivery requirements, orders can only be accepted subject to delays caused by strikes, accidents, delivery dates set by suppliers, or by any unforeseen reasons.

Possession of this price list, samples, or a price quotation does not obligate Tierra Sol Ceramic Tile Ltd. to sell its materials to anyone. All quotes, written or otherwise, are subject to our review and acceptance at time of placing the order.

All special orders require a 50% non-refundable deposit at time of order. There is no guarantee of shade or caliber. Balances are due on delivery, or due according to terms set for established account customers.

Sale of discontinued material is final without guarantee of shade or calibre uniformity.

All prepaid or delivered orders are subject to a Fuel & Carbon Tax Surcharge (FSC) of 2.0% of the total invoice value. Please note that this applies only to delivered orders, not collect or pick-up.

Any materials that are transferred in from another branch by customer request must be picked up or a 15% restocking fee will be charged.

PAYMENT TERMS

Terms are Cash-On-Delivery or, for established accounts, NET 15th of the following month. Overdue accounts are subject to interest charges of 1½% per month (19.6% per annum).

Tierra Sol Ceramic Tile Ltd. reserves the right to cancel credit privileges at any time. Customers whose account fall 60 days past due will have all credit privileges suspended until their account is completely paid in full.

FREIGHT CLAIMS

Delivery to carrier constitutes delivery to buyer regardless of FOB point or whether freight is collect or prepaid.

Claims of damage, loss, delay or shortage must be delivered to the carrier by the customer.

Claims of order shortage must be directed to Tierra Sol Ceramic Tile Ltd. within ten days of shipment.

RETURNED MATERIALS

An RMA (Return Material Authorization) is required prior to material returns.

Only current stock in full, unopened boxes are accepted for return.

No materials will be accepted for return after 30 days from date of purchase.

No materials will be accepted for return on factory direct orders, special orders, powder or liquid products, sale or discontinued items, or materials made to order.

No returns of natural stone that have been selected through.

All returns must have prior consent by your sales rep. No returns are permitted unless agreed upon by Tierra Sol Ceramic Tile Ltd.

All returns must be freight prepaid, in resalable condition, have original invoice numbers attached to receive credit.

A minimum 15% restocking fee will be charged for all returns.

PRODUCT CLAIMS

Please verify that your order confirmation is correct. Variations in shade, colour, and size are inherent of all burnt clay materials, and glazed tile is subject to crazing, and are not grounds for claim once installed. Furthermore, variations in shade, size and finish can vary from a previous shipment or from sample boards Tierra Sol may have previously distributed.

Of rectangular tile, Tierra Sol Ceramic Tile Ltd. does not recommend a 50-50 brick pattern, nor will we accept any claims pertaining to this.

Of glass and stone mosaics, testing the installation technique, grouting and finishing, cutting, checking squareness of the sheets, and generally being fully aware of the characteristics of the mosaics being installed and the setting materials being used is required prior to commencing the job. Small chips, shade variations, size variations, and mounting squareness are all expected and normal characteristics of mosaics and are not considered grounds for claim.

No guarantee is made against wear. All tile will scratch and wear and it should be expected in areas of heavy traffic. Degree of wear is a function of maintenance and abrasion. Tierra Sol Ceramic Tile Ltd. cannot be responsible for failures resulting from tiles being installed in areas where they are not suitable. Wear will be apparent sooner on light or white coloured tile.

All packing information stated in the current price list is subject to change without notice.

The buyer is responsible for inspecting and accepting materials before it leaves Tierra Sol's warehouse, as well as with the final customer before it is installed. No claim will be accepted for damaged material once it has left our warehouse. Method of installation and site conditions are beyond our control and no claim will be accepted for chipping, crazing, spalling, etching, cracking, discolouration, or loosening from the setting bed. If our products are unsatisfactory for any reason, we must be notified before installation. No allowance will be made for labour costs or any other charges after materials have been installed.

Certain "Builder Grade" floor tiles, particularly non-rectified tiles, are supplied in accordance with the quality controls to which they are produced. Tierra Sol will accept claims for side length variation greater than 1mm, measured on the face of the tile, or if the tile is out of square. In such a case, return of the tile will be accepted without restocking charge. The installer retains responsibility to accept quality prior to installation. Tierra Sol will not accept complaints for tile already installed nor for any related labour charges.

HOLDING MATERIAL

Stock may be put on hold for 72 hours only, after which it will return to inventory for sale.

EXCLUSION

These terms and conditions constitute the sole and entire agreement between Tierra Sol Ceramic Tile Ltd. and the buyer.

NOTE: Starting in March 2018, 12x24 tiles will be produced in a thickness of 9mm, seen in the packing update of 7 PC/BOX. Originally, these tiles were 10mm thick and are still available as existing stock in old packaging. Any new orders arriving after March will be in new packaging. Due to this change in thickness, 9mm tiles cannot be mixed with the older 10mm tiles.

* NOTE: Ideal for raised floor using pedestals or loose laid for landscaping onto grass, gravel, or sand. Can also be installed the traditional method using thinset. Uses include outdoor patios, gardens, pathways, pool decks, and balconies. Offers a continuous transition from indoor to outdoor spaces. The finish texture gives an excellent anti-slip feature. A full catalogue is available on request.

CASALGRANDE**METALLICA SERIES UNGLAZED PORCELAIN**

Casalgrande's Metallica series utilizes ground-breaking technology and sophisticated manufacturing processes to create a highly technical tile that can be used in numerous designer solutions. This glazed porcelain stoneware is subjected to a unique metallizing process in the finishing layer which reflects the textured feel and tonalities of metals: stainless steel, copper, nickel, iron.

PROVENZA**IN-ESSENCE SERIES THRU-BODY COMMERCIAL & RESIDENTIAL****OSSIDATA AND MISCELA**

The stone and cement combination gave rise to a unique material brimming in detail and peculiarities. In each individual piece, the quantities of stone and cement vary, creating a harmonious and totally original effect. The woods on which the traces of tannin create unique stains over time, were reproduced in oxidized walnut. Pickled boards, both intensely and slightly worn, were produced in oxidized oak, presenting all the imperfections and stains typical of the natural material.
