PRESS RELEASE

Monday, April 25, 2016

CCI; Chemical Containers, Inc. “your premier specialist in liquid handling products” announces their expansion of its service capabilities to the Agriculture Industry in the Ft. Pierce and east central Florida areas. CCI’s Founder and President John Motis commented, “We will now have the opportunity to provide a timelier and more effective method of servicing our customers and friends in this area, by offering our own repair personnel in our Ft. Pierce operation. Whether you need service on site, in the field, or in the shop, we now offer local repair service to keep your equipment running. This decision fits our overall company goal of always striving to do whatever it takes to support our friends in Agriculture.”

In the business world of Agriculture, timing is everything. And timing and the ability to get things done, will determine your successful harvest. If your farm equipment is down, and you can’t spray your crop, there may not be a harvest.

CCI has been in business for over 35 years servicing the Agriculture Industry. With CCI’s Ft. Pierce personnel having over 60 years of combined service experience, we are now eager and ready to assist you in your repair needs.

Insure your harvest will be there, let Chemical Containers New Field Mechanic repair your sprayer or other equipment on site or in our Ft. Pierce facility located at 15897 Orange Avenue. Just simply call 772-801-5326 to get the experienced help you need.

Chemical Containers Inc., is the sole Authorized Rears Distributor in the Southeast United States.
