

**70
GALLON**

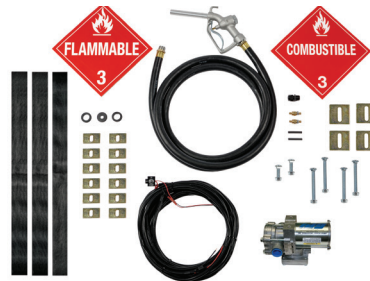

The Perfect Fit

Maximize bed space with the adjustable 70-gallon refueling tank and tool box combo!

Our 70-gallon refueling tank and tool box combo is uniquely designed to sit on the bed rails and adjust to the depth of the pickup bed creating up to 9 cubic feet of storage space.

The 70-gallon refueling tank is Department of Transportation (DOT) legal to carry and transfer gasoline, diesel, ethanol/methanol, and kerosene, and features an easy-to-use purge function that moves remaining fuel from the hose back into the fuel tank. The tool box is equipped with locking handles to keep your gear secure and gas-filled shocks that make it easy to open and close the tool box lid.

The 70-gallon refueling tank is made from 14-gauge, high-yield U.S. aluminized steel, for superior durability and strength. All Transfer Flow fuel tank systems come complete with all parts needed for installation.

All fuel systems ship with all parts needed for installation and use.

SHORT AND LONG BED

Fits: All Full-Size Trucks

Fuel: Gasoline, Diesel, Kerosene

Ship Weight: 293 lb.

Dimensions: 73" L x 24 1/2" W x 23 3/4"-27 3/4" H

Part Number: 080-01-16230
