

UCNM65

15° PLASTIC OR WIRE COIL NAILER

Air Pressure: 80-110 PSI

Max Air Pressure: 120 PSI

Air Fitting Size: 3/8" NPT

Loading

Push the latch until unlocked.

Set the plate level in the magazine depending on the nails' length.

Magazine Capacity: 300 nails.

Load the coil nails in the magazine. Line up the end with the nose, and keep the nails' heads in the slot.

Close the magazine first and then the door.

Use the depth adjustment in order to change the penetration.
