Spectrum™ 15D & 18D

Dual Motor Upright Vacuums

More Productivity. Better Filtration. Better Value.
Advance's 15 and 18 inch Spectrum dual-motor upright vacuums deliver the superior performance results expected from Advance vacuums: dirt pickup and filtration. Upright vacuums rely on a combination of dirt pickup to remove soil from carpets and filtration to ensure that dust and other airborne particles stay captured. With the addition of a brush motor, the Spectrum dual-motor vacuum has a total of 1,350 watts of power. Operators now have single pass power in an upright vacuum, which results in greater productivity. According to independent testing by ISSA, dual motor vacuums generate 16% greater productivity then single motor vacuum of the same width*. The unique design of the power head creates a seal with the carpet surface to agitate and capture dirt and dust that other dual motor vacuums miss.

Spectrum's innovative design has earned the CRI (Carpet & Rug Institute) Seal of Approval – signifying that Spectrum meets the industry's newest dirt pickup and filtration standards for vacuum performance. These standards are more stringent than those used previously for Green Label certification. And, at a budget conscious price, it offers better performance and increased productivity at a fraction of the cost to clean.

True soil removal also requires proper filtration to ensure that dirt particles are not released back into the air. CRI standards require a vacuum to emit less than 100 micrograms of dust per cubic meter of airflow exhaust and consider ratings of less than 25 micrograms to be exceptional. Spectrum dual motor vacuums emit just 6 micrograms per cubic meter of airflow exhaust, an astounding measure that says when Spectrum picks up dirt, it stays picked up! Spectrum's filtration performance is due to the vacuum's three-stage filtration system, which includes a certified H.E.P.A. filter – an important distinction that guarantees each filter has been tested for true H.E.P.A. performance by an independent third-party laboratory. This true soil removal results in superior indoor air quality that operators and building occupants are sure to appreciate.

A full complement of tools and user-friendly design features make Spectrum easy to use and maintain. Operators will appreciate the versatile quick-draw detailing wand, simple brush and handle height adjustments and the convenient cord restraint and storage features. Vacuum maintenance is a breeze thanks to features such as a bag full/clog light, unique quick-change bag design, and a service-free belt system with a two-year warranty.

Spectrum dual motor vacuums actually outperform upright vacuums sold at up to twice the price. When compared on dirt pickup and filtration, Spectrum literally leaves its more expensive counterparts in the dust.

Standard Accessories Include

- Crevice tool
- Upholstery tool

Typical Applications Include

- Hotels / Motels
- Hospitality
- Hospitals
- Long-term Care Facilities
- Building Service Contractors
- Retail Facilities
- Government Facilities
- Education

Features and Benefits

- CRI Seal of Approval for vacuums
- Better dirt pickup than competitors
- Better filtration – certified H.E.P.A. filter standard

Spectrum™ 15D & 18D

Dual Motor Upright Vacuums

Quick change bag is the first level of filtration.

Cord restraint protects against cord abuse.

Tools-free access to remove brush.

Certified H.E.P.A. is the final filtration stage.

Accessories are conveniently tucked behind the vacuum wand.

1. *50 foot safety yellow cord*
2. *Heavy duty cord restraint*
3. *Adjustable height handle*
4. *Convenient front handle for lifting*
5. *Certified H.E.P.A. filter*
6. *Easy release foot pedal turns the brush motor on or off when in the upright position*
7. *Easy to adjust brush height warning light alerts operators when the brush is to low*
8. *Tools-free removable brush*
9. *Non-marking wrap-around bumper*

Defining Cleaning Innovation…

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.
- Maintain peak performance with Nilfisk Parts.

Technical Specifications

Model	Spectrum™ 15D	Spectrum™ 18D
Vacuum Motor	120 V, 60 Hz, 1,000 W, 9 amp, 2-stage	120 V, 60 Hz, 1,000 W, 9 amp, 2-stage
Brush Motor	120 V, 60 Hz, 350 W	120 V, 60 Hz, 350 W
Motor Protection	Airflow bypass valve and thermal overload protection	Airflow bypass valve and thermal overload protection
Suction (waterlift) / Airflow	92 in / 93 cfm	92 in / 93 cfm
Brush	Dual row, chevron style, nylon with variable manual adjustment	Dual row, chevron style, nylon with variable manual adjustment
Brush Speed	2,800 RPM	2,800 RPM
Cleaning Path	14.5 in (36.8 cm)	17.5 in (44.5 cm)
Filtration	2-ply paper filter bag, motor protection filter, certified H.E.P.A. exhaust filter	2-ply paper filter bag, motor protection filter, certified H.E.P.A. exhaust filter
Bag Capacity	4.2 qt (4 L)	4.2 qt (4 L)
