≡ FEATURES & BENEFITS ≡

■ **LED lighting interior display system**

Safety shielded 4 LED lighting system on every corner of the cabinet ensures a longer life and brighter lighting than fluorescent light bulbs, providing attractive, enhanced and shadow-free illumination.

■ **Efficient refrigeration system**

Turbo Air's refrigerators are designed with oversized and balanced R-134A (CFC Free) refrigeration. These include efficient evaporators and condensers for faster cooling and greater efficiency.

■ **Beautiful 4 sided glass cabinet allows visibility from all sides to optimize display effect**

■ **Compact size and countertop design occupies minimum space but maximize impulse sales**

■ **Great space efficiency is ideal for narrow space restaurants and convenience stores**

■ **Elegant contemporary Euro design will enhance the interior and space decoration of any store**

■ **Sturdy, clean stainless steel shelving**

Shelves are the most important part of cleanliness as they come in direct contact with food. After a while, PVC coated wire shelves may peel, rust and lead to unsanitary conditions. Only the Turbo Air Diamond Show Case uniquely provides stainless steel shelving.

■ **Recommended operating conditions**

CRT models are designed to operate in environments where temperature & humidity do not exceed 75°F and 55% relative humidity.
