To John Eddowes | Midtherm Flue Systems <john.eddowes@midtherm.com>

Hi John

Please can you take a look at the items below and let me know the cost price. Do you think the retails price is ok?

We are currently selling these as specials but we are going to have them coded and added to the pricelist.

We will also need drawings so that can be added to the file on Acumatica and I guess the laser as well.

I've added codes to the description so you can add these to the drawings.

Thanks
