

TECHNICAL DATA SHEET

Part#: 210B-S

Brushes - Instrument Cleaning - Bent - $\star \star \star \star$ - Acetal Handle/SS Bristles

The 210B-S four star 50th bent tip instrument cleaning brush with stainless steel bristles is designed for general cleaning in tight areas. The handle is .25" in diameter, with a tip size of .13" wide and .19" long. The fibers are mechanically clamped into the stainless steel tube and inserted in the acetal handle. These brushes are used for scratch-free dry brushing.
