Cyclopentasiloxane

Cetyl Dimethicone

## INGREDIENTS

## PRESENTATION

1.7 oz. R-04717 (*light*)  
1.7 oz. R-04817 (*medium*)  
1.7 oz. R-04917 (*dark*)

## SKIN TYPE

Most skin types. Available in three shades

## PURPOSE

Sheer tinted coverage provides even, natural skin tone while hydrating the skin. The oil-free crème leaves a smooth, matte finish and SPF 20 to protect against UV rays. The paraben-free, weightless finish formula is suitable for most skin types.

## BENEFITS

Non-PABA sunscreen agent derived from cinnamic acid blocking UVB rays.

A natural white mineral pigment; protects skin from sun damage by blocking UVA [aging] and UVB [burning], excess oil absorbing, purifying

Non-irritating silicone, improves barrier function

Aids in pigment dispersion, imparts velvety feel on the skin

Aluminum Hydroxide, Aluminum Starch Octenylsuccinate, C12-15 Alkyl Benzoate, Cetyl Dimethicone, Cetyl PEG/PPG-10/1 Dimethicone, Chlorphenesin, Cyclopentasiloxane, Disodium EDTA, Ethylhexyl Stearate, Hexyl Laurate, Hydrogenated Castor Wax, Iron Oxides (CI 77492,77491,77499), Magnesium Sulfate, Microcrystalline Wax, Polyglyceryl-4 Diisostearate, Polyglyceryl-4 Isostearate, Polyhydroxystearate Sebacate, Polyglyceryl-3 Polydimethylsiloxyethyl Dimethicone, Stearic Acid, Titanium Dioxide (CI 77891), Triethoxysilylethyl Polydimethylsiloxyethyl Hexyl Dimethicone, Water (Aqua)

## HOME USE

Apply generously and evenly before sun exposure and as needed.
