

Urban Anti-Pollution Essence

DERMA DATA

KEY PRODUCT ATTRIBUTES

- Helps remove harmful urban pollutants from skin's surface
- Minimizes damages from long-term exposure to visible light and blue light
- Promotes visibly brighter, more radiant complexion
- Deep hydration and skin resilience
- Regulates and balances sebum production
- Rich in plant-based antioxidants

KEY INGREDIENTS

Xanthophyll

Hydrolyzed Rhodophyceae Extract

Saccharide Isomerate

Theobroma Cacao (Cocoa) Extract

Sodium Hyaluronate

Biosaccharide Gum-1

INGREDIENTS

PRESENTATION

3.5 oz. S-57835

SKIN TYPE

All skin types

PURPOSE

This first-of-its-kind skin treatment bathes skin in refreshing hydration while delivering the highest concentration of anti-pollution ingredients, including a unique macroalgae which helps fight effects of air pollution and a marigold derived, lutein-rich isolate that helps filter exposure from blue light-emitting electronic devices. After application of this water-like essence, the skin is ready to welcome all subsequent serums and creams. The effect is visibly rejuvenated and more radiant skin.

BENEFITS

Plant-based lutein-rich isolate derived from marigold extract acts as an effective blue light filter able to reduce skin damages from long-term exposure to visible light; also acts as a powerful antioxidant capable of reducing ROS release that causes oxidative stress at cellular level.

Dermo-purifying macroalgae, ingredient that fights against pollution effects on skin. Helps urban skin recover from exposure to microparticles, heavy metals and ozone. Also proven to regulate and balance sebum secretion.

Produced by culture in bioreactor to obtain a pure, natural and characterized molecule; it moisturizes and exfoliates the skin. Encourages new corneocytes to be healthy, which results in less visible pores and more resistance to external stressors.

Biofunctional and sustainable isolate derived from cocoa seed helps skin fight damaging effects from blue light pollution.

Non-animal derived humectant, regulating the level of hydration of skin; forms a moisturizing, non-occlusive layer of moisture on skin.

Polysaccharide with a high molecular weight, which forms a non-occlusive film on the skin surface; builds a global barrier against both atmospheric pollution and indoor pollution.

INGREDIENTS : Water, Isopentyldiol, Glycerin, Sorbeth-30 Tetraistearate, Xanthophyll, Saccharide Isomerate, Sodium Hyaluronate, Hydrolyzed Rhodophyceae Extract, Theobroma Cacao (Cocoa) Extract, Sorbitan Sesquiostearate, Acrylates/Beheneth-25 Methacrylate Copolymer, PPG-1-Ceteth-1, Corn Starch/Acrylamide/Sodium Acrylate Copolymer, Biosaccharide Gum-1, Jasminum Officinale (Jasmine) Oil, Citrus Aurantium Dulcis (Orange) Flower Oil, Sodium Hydroxide, Sucrose, Dipropylene Glycol, Polysorbate 20, Butylene Glycol, Phenoxyethanol, Ethylhexylglycerin

HOME USE

Dispense 3-5 pumps and gently smooth onto face and neck. Apply mornings and evenings after cleansing as the first step towards your anti-aging skincare regimen. Follow with appropriate serum and/or cream. The essence forms an instant shield and safeguards skin from the aging effects of harmful free radicals and environmental pollution.
