HD PB CART

Reliable and professional.

Our cold-water series provides a broad selection of rugged belt-drive units, all with reliable Honda GX engines, which deliver cleaning volume of up to 3.7 GPM. Each model comes with a rugged steel chassis, cast iron belt pulley system, flat-free tires, and industrial-grade Kärcher crankcase pump.

1 Powerful and durable

- Rugged chassis base painted with an epoxy powder coat finish for all-weather protection.
- Notched V-belts and cast-iron pulleys reduce belt slippage and provide longer pump life.
- Reliable Honda GX engine with two-year warranty; low-oil alert, silent-tone muffler (9 and 13 HP models also have valve for easy pull-start).
- 50' durable wire-braid hose rated for 3000 or 4000 PSI; with hose guard for burst protection.
- Inlet strainer protects pump from debris in the water source.

2 Smart features

- Easy-to-attach downstream detergent injector with brass soap nozzle.
- Stainless steel wand with quick-couple connectors for easy attachment of high-pressure nozzles.
- Insulated, high-pressure trigger gun for hours of fatigue-free cleaning.
- Industrial-grade tri-plunger oil- bath Kärcher pump with forged brass head and ceramic pistons.

3 Outstanding mobility

- 10" tubed pneumatic tires for easy maneuvering on all terrains and to absorb vibration.
- Rubber feet to absorb vibration and keep the unit from “walking”.
- Convenient front and back 1 1/4" chrome-plated handles to assist in lifting and moving the pressure washer.
