

Easily test the LED lights on all your Infinity Control Modules to ensure your custom annunciation solution is always operating at its very best.

SPECIFICATIONS

Compatible with all IAM and IAV units. Must be used with at least one ICMHOA. Momentary rocker switch tests all LEDs on all ICMHOA control modules wired to it by passing 24 VDC through the switch to the LEDs on all modules. The LEDs shall light when the switch is activated, regardless of the state of an ICMENGAGE (if installed). If an ICMLEDTST and an ICMENGAGE are both installed, the ICMENGAGE must be wired electrically after the ICMLEDTST. Standard clinch type terminal strip used for field wiring.

FEATURES

- Scratch-resistant Lexan® face panel with a black background and white screened legend
- Durable steel frame mounts into an Infinity Gang Box or standard electrical back box and securely holds the Infinity Gang Plate
- Standard mounting hardware included

SWITCH POWER RATINGS

3A @ 24VDC | 3A @ 24VAC

TERMINAL BLOCK

12-26 AWG wire

AGENCY APPROVALS

- UOXX.S2580 UL Listed Control Unit Accessories
- UUKL.S2580 UL Listed Smoke-Control System Equipment
