- Magnetic latch
- 16 gauge cold rolled steel enclosure
- Indoor use
- Surface or semi-flush mount
- Back box cutout dimensions: 15.75”w x 12.88”h
- Durable powdercoat finish
- Single gang cutout for optional equipment
- Cutout for 4003-9803 microphone (supplied by others)

The Local Operating Console by Space Age Electronics is designed for indoor use with the Simplex 4100u control panel for mass notification applications.

SPECIFICATIONS

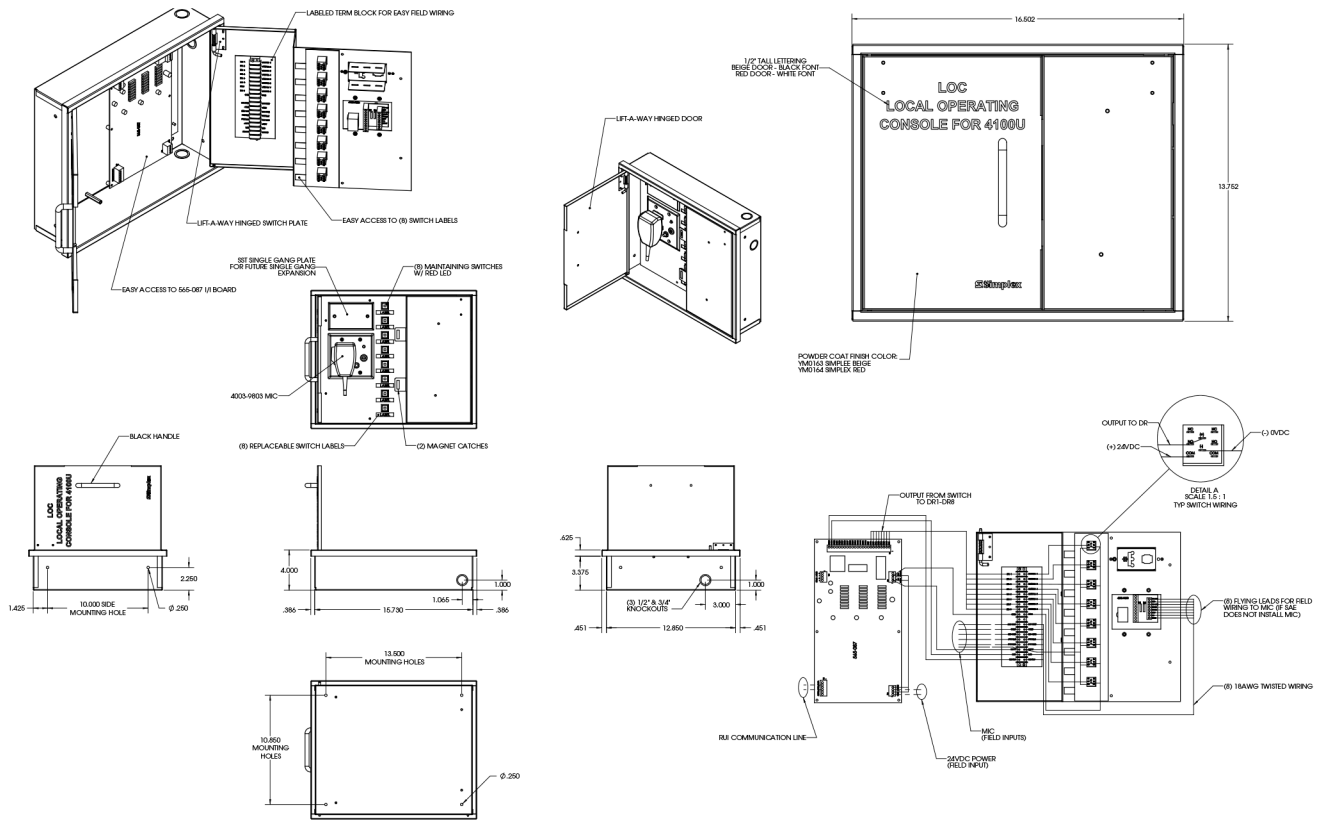

The LOC contains eight push on/push off illuminated buttons wired to one 4100-7401 24I/O (included) to accommodate the mounting of a customer supplied 4003-9803 microphone assembly. The 16 gauge cold rolled steel enclosure is comprised of a back box which can be surface or semi-flush mounted without the need of a separate trim ring. The solid cover secured to the box via a magnetic catch. Finished in a durable powder coat with a black silk screened lettering on the front cover. The enclosure’s overall dimensions are 16.5”w x 13.75”h x 4”d.

OPTIONAL FEATURES

- HVAC Emergency Shutdown Mushroom Switch, maintained with set of normally open and normally closed contacts rated for 600v @ 10a
- Red powdercoat finish with white silk screened letters
