From Fit to Function, GoFit® Gives You More

Introducing the ProTeam® GoFit Series from Emerson™ – a lineup of vacuums maximizing your comfort and productivity.

Easy to navigate with a reduced profile

Manufacturer PDF Provided by www.southeasternequipment.net

Cord management made easy

Reimagined articulating harness for optimal comfort

Ergonomic design to fit a wide range of users

4 levels of filtration

Customizable fit with no tools required

Manufacturer PDF Provided by www.southeasternequipment.net

Small But Mighty

Meet Our First Ever ProTeam 3-qt Backpack Vacuum

The smallest in the GoFit Series, this vacuum brings the same power and efficiency that the larger versions do.

This 3-qt backpack vacuum is ideal for those with a smaller frame and for use in tight spaces.

In addition to the 3-qt version, the new GoFit series is available in 6-qt, 6-qt PLUS, and 10-qt versions.

FOUR DIFFERENT MODELS — all packed with the same power and efficiency

VERSATILE — choose the unit size for your comfort and cleaning needs

Comfort in Ergonomic Design

The GoFit Series comfortably fits a wide range of users and offers a tighter center of gravity which means more freedom to move.

The new vacuums of the GoFit Series pair nicely with a completely reimagined harness.

The Perfect Fit

Our Quick-Adjust Harness System Offers 4 Dimensions of Comfort

It's as Easy as 1, 2, 3, 4
and No Tools Required

1. **Step it up.** Adjustable upper harness for customized balance and fit.
2. **Belt it out.** Supremely comfortable waist belt for a tailored fit.
3. **Strap in.** Turn comfort up a notch with fully adjustable shoulder straps.
4. **Buckle up, turn on.** Clip in, hit the switch and get your clean on.

IMPROVED ERGONOMICS — thicker padding for extra comfort

ARTICULATING UPPER HARNESS — design responds to user's movement, maintaining center of gravity

NO TOOLS REQUIRED — quick-adjust system moves upper harness up and down to fit users perfectly

INCREASED BREATHABILITY — better airflow with a mix of open and closed weave fabric

INTERCHANGEABLE HARNESS — attached with Velcro®, pads are simple to remove, so when users perspire, pads are easy to change out, no tools required

WIDER AND LONGER LOWER HARNESS — fits more users comfortably

USER-FRIENDLY, 4-STEP FITTING — numbered and intuitive touchpoints for a custom comfortable fit

The Backpack Unit That's Easy to Manage

Cleaning for Health® Made Simple

On average, Americans spend 90 percent of their time indoors. This is why we take filtration seriously — everyone deserves to breathe clean air.

Our filtration system captures and contains soil and harmful particles, preventing them from being reintroduced into the environment. The filters are easier to access and manage on the GoFit models.

IMPROVED FILTER DOOR — easy push-button latch on exhaust filter door reduces profile, simplifies access to HEPA Media Filters, and prevents accidental opening

EASY FILTER ACCESS — hinged lid opens easily with single, quick-release, die-cast latch

PROLEVEL FILTRATION® SYSTEM — 4 levels of filters reduce allergens and asthma triggers

NEW AND IMPROVED HEPA MEDIA FILTER — a flexible gasket creates a tighter seal and captures microscopic debris

COMPATIBLE FILTERS — Super Coach Pro® Intercept Micro Filter®, Micro Cloth Filter and Dome Filter also fit the GoFit series

GOFIT 6 PLUS (6-QT SIZE) – the PLUS has a filter change indicator light that shows when there is a clog and when the filter needs to be checked/changed

- Solid Red: Check Intercept Micro Filter Bag
- Flashing Red: Check for clog or blockage

* Filter indicator light exclusive to the GoFit 6 PLUS

Powerfully Efficient

Choosing the right vacuum is about more than comfort. So why choose a ProTeam backpack?

3x FASTER — Backpack vacuums are **3x faster than uprights***

43% MORE EFFICIENT — In 5 passes, the ProTeam backpack is **43% more efficient than a commercial upright vacuum****

30% MORE EFFECTIVE — **Removes 30% more soil** than a canister vacuum**

* Based on ISSA 612 Cleaning Times (www.issa.com). Used with permission.

**Quality Environmental Services & Technologies, 1996; APC Filtration, Inc., 1996; An Evaluation of ProTeam's QuarterVac and CoachVac in a School Environment, Dr. Eric Brown, Cleaning Research International, UK, 1994

"Side-to-side vacuuming, along with a typical work-rest schedule, is one of the best ways to vacuum large areas on a regular basis."

–Jim Fullmer,
Certified Human Factors Professional

Improved Cord Management

A new and improved switchbox has an integrated, secure cord wrap built into the assembly.

NEW TWIST-LOCK DESIGN — secures plug of extension cord into switchbox so no more accidental unplugging when caught on objects

INTUITIVE CORD WRAP — located on the side of the switchbox, the cord wrap adds security and reduces strain on cord plug

Simplified Fleet Management

ProTeam continues to be the brand you know and trust, but in the event service is needed, we have made things simple. To take the headache out of fleet management, most service parts are interchangeable across the GoFit Series.

PERFORMANCE SPECS BASED ON MOTOR SPECS

*The filtration value of ProTeam's ProLevel Filtration System in this vacuum is achieved by the use of a multi-stage filtration system, including intercept micro filter, micro cloth filter, plastic cage with foam filter, and post-motor filter made from HEPA media, as tested per ASTM F3150.
