

PRODUCT SPECIFICATION

Cook's High Security Tool Lockers

features

The number one objective of the Cook's Brand High Security Tool Locker is to keep officers and kitchen staff safe by providing the most secure storage available for knives and other necessary kitchen tools. The Cook's Brand High Security Tool Locker is impenetrable with common kitchen tools. The door is designed so that when it's locked, it cannot be pried open. The optional flashing light provides a prominent visual cue that the door is open. The see through Lexan door lets staff see what is in the tool locker, but is virtually impossible.

Cook's Brand

Products designed for the toughest environments

STANDARD FEATURES

RUGGED CONSTRUCTION: The Tool Lockers are constructed entirely out of 14 gauge all welded stainless steel. Additionally, the lockers have 3/8" Lexan for the door, which is virtually impossible to break.

ENHANCED SECURITY: Non-removable door fits flush with the face of the locker and is secured with a 3 point locking device with Master pro Series pick resistant 6 pin lock. 270° hinged locking plate made of 12 gauge stainless steel.

OPTIONAL LIGHT: Always know when the locker is being used with the bright blue strobe light that flashes everytime the door gets opened. Powered by easily replaceable 12 volt battery.

SPACIOUS: 4" x 3/16" Dia. stainless steel welded pins are positioned in three rows with spacing of 10", 13" and 18" that allows you to store all sizes knives, peelers, spoons, ladles and portion utensils.

WARRANTY: The Tool Lockers are backed up by a one year warranty against manufacturing defects.
